

CONTENTS VOLUME 44 AUGUST 1980

page	
1	ASHFORD, A. E. and KNOX, R. B. Characteristics of pollen diffusates and pollen wall cytochemistry in poplars
19	ROBERSON, M., ARMSTRONG, J. and ARMSTRONG, P. Adhesive and non-adhesive membrane domains of amphibian embryo cells
33	BUTTERS, T. D., DEVALIA, V., APLIN, J. D. and HUGHES, R. C. Inhibition of fibronectin-mediated adhesion of hamster fibroblasts to substratum: effects of tunicamycin and some cell surface modifying reagents
59	BELLOWS, C. G., MELCHER, A. H. and BRUNETTE, D. M. Orientation of calvaria and periodontal ligament cells <i>in vitro</i> by pairs of demineralized dentine particles
75	KURODA, R. and KURODA, H. Calcium accumulation in vacuoles of <i>Physarum polycephalum</i> following starvation
87	HILL, R. S. and MACGREGOR, H. C. The development of lampbrush chromosome-type transcription in the early diplotene oocytes of <i>Xenopus laevis</i> : an electron-microscope analysis
103	WATT, F. M. and HARRIS, H. Microtubule-organizing centres in mammalian cells in culture
123	WATT, F. M., SIDEBOTTOM, E. and HARRIS, H. Microtubule-organizing centres in binucleate cells and homosynkaryons
135	TUCKER, J. B., BEISSON, J., ROCHE, D. L. J. and COHEN, J. Microtubules and control of macronuclear 'amitosis' in <i>Paramecium</i>
153	COHEN, J., BEISSON, J. and TUCKER, J. B. Abnormal microtubule deployment during defective macronuclear division in a <i>Paramecium</i> mutant
169	YANO, Y. and MIKI-NOUMURA, T. Sliding velocity between outer doublet microtubules of sea-urchin sperm axonemes
187	ERICKSON, C. A. The deformability of BHK cells and polyoma virus-transformed BHK cells in relation to locomotory behaviour
201	RADICE, G. P. Locomotion and cell-substratum contacts of <i>Xenopus</i> epidermal cells <i>in vitro</i> and <i>in situ</i>
225	SANDERS, E. J. The effect of fibronectin and substratum-attached material on the spreading of chick embryo mesoderm cells <i>in vitro</i>
243	ARMSTRONG, P. B. Adhesion and spreading of <i>Limulus</i> blood cells on artificial surfaces
263	ARMSTRONG, P. B. Ability of a cell-surface protein produced by fibroblasts to modify tissue affinity behaviour of cardiac myocytes
273	IRELAND, C. M. and HAWKINS, S. E. Characterization of a strain-specific inhibitor of cell division from <i>Amoeba</i> cytoplasm
285	THOMOU, H., KOUSSOULAKOS, S. and STATHAKOS, D. Human β -globulin factors affecting growth of human lymphocytes and mouse fibroblasts
299	McMILLAN, R. M., MACINTYRE, D. E., BEESLEY, J. E. and GORDON, J. L. Regulation of macrophage lysosomal enzyme secretion: role of arachidonate metabolites, divalent cations and cyclic AMP
317	GAVIN, R. H. The oral apparatus of <i>Tetrahymena</i> . V. Oral apparatus polypeptides and their distribution
335	TAMM, S. L. The ultrastructure of prokaryotic-eukaryotic cell junctions
353	BROWN, D. Similarities of membrane structure in freeze-fractured <i>Xenopus laevis</i> kidney collecting tubule and urinary bladder
